## VASCULAR ULTRASOUND – NON-FASTING

( ) **1100 South Eliseo Drive, Suite 2A  
Greenbrae, CA 94904  
Phone: 1-415-464-5400  
Fax: 1-415-464-5411**

( ) **75 Rowland Way, Suite 101  
Novato, CA 94945  
Phone: 1-415-464-5400  
Fax: 1-415-464-5411**

( ) Carotid Ultrasound

( ) ABI

( ) TBI

( ) Arterial Scan Unilateral/ Bilateral

( ) Bypass Graft Scan

( ) Venous Scan Unilateral/ Bilateral for DVT

( ) Varicose Vein Scan

( ) Vein Map Study (Pre-Bypass or Pre-Dialysis)

( ) Dialysis Graft Scan

( ) Arterial Segmental Complete

Please arrive a few minutes before your appointment. We request that you notify us at least 48 hours in advance if you cannot keep your appointment.

### What is Vascular Ultrasound?

Ultrasound or sonography involves the sending of sound waves through the body. Those sound waves are reflected off internal tissues. The reflections are then interpreted by special instruments that subsequently create an image of anatomic parts. No ionizing radiation (x-ray) is involved in ultrasound imaging.

An ultrasound image is a useful way of evaluating the body's circulatory system. Ultrasound images are captured in real-time, so they can help physicians monitor the blood flow to organs and tissues throughout the body, as well as evaluate the placement and success of repair, such as after arterial bypass surgery. With ultrasound images, physicians can locate and identify blockages (stenoses) and abnormalities like blood clots, plaque or emboli and help plan for their effective treatment.

To help you prepare for your test, review the items below:

- Wear loose, comfortable clothing and no jewelry around your neck for carotid studies
